### Cleaning Frequency

Vacuum carpets at least once a week, and perform professional deep cleaning every **12-18 months**

### Frequency & Types of Fiber

Natural fiber carpets in high-traffic areas with pets/children: deep clean every **6 months**

Synthetic fiber carpets in low-traffic areas without pets/children: deep clean every **12 months**

### Common Deep Cleaning Mistakes

- Using too much detergent
- Using too much water
- Not rinsing / leaving residue
- Over-cleaning

### Identify When to Replace Carpet

- Unusual odors
- Discoloration or fading
- Excessive wear and tear
- Stains that don't respond to cleaning
- Signs of mold growth
